## Library Kindle book delivery

- The next page will further instruct you on how to read your library Kindle book depending on the method you chose for delivery.
- Public library books require an active Wi-Fi connection for wireless delivery to a Kindle device. Library books will not be delivered via your Kindle's 3G connection. If trying to send to a Kindle device and do not have an active Wi-Fi connection, you may instead choose to load your library book via USB. Both Mac and Windows users can manage Kindle content through a USB connection.
- **USB Transfer Tip:** After downloading, use your USB cable to connect your computer and Kindle. Your Kindle will appear as a drive on your computer. Copy your downloaded file from your computer to your Kindle's documents folder.

## Download

You must have the appropriate digital software downloaded to your computer or PDA *before* you download these digital titles.

If this page is no longer available after downloading and installing the software, go to 'My Digital Account' and click on the 'My Digital Bookshelf' link to download your title(s).

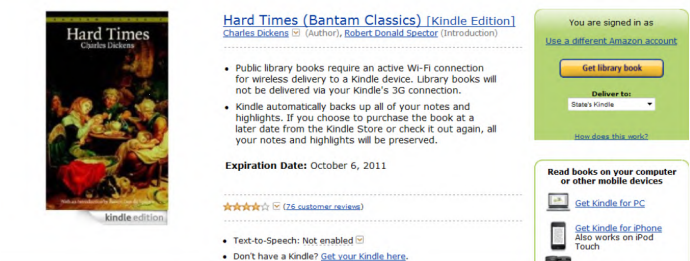

Once you have downloaded and installed the appropriate digital software, download the title to your machine. If you prefer to download the title at a later time, please return to the site and visit your 'My Digital Bookshelf' (*My Digital Account > My Digital Bookshelf*).

The following digital title(s) are now available for download:
